5.2. Create a Deal (Main Flow)

From "New Deal" to a downloaded document package and scheduled deadlines

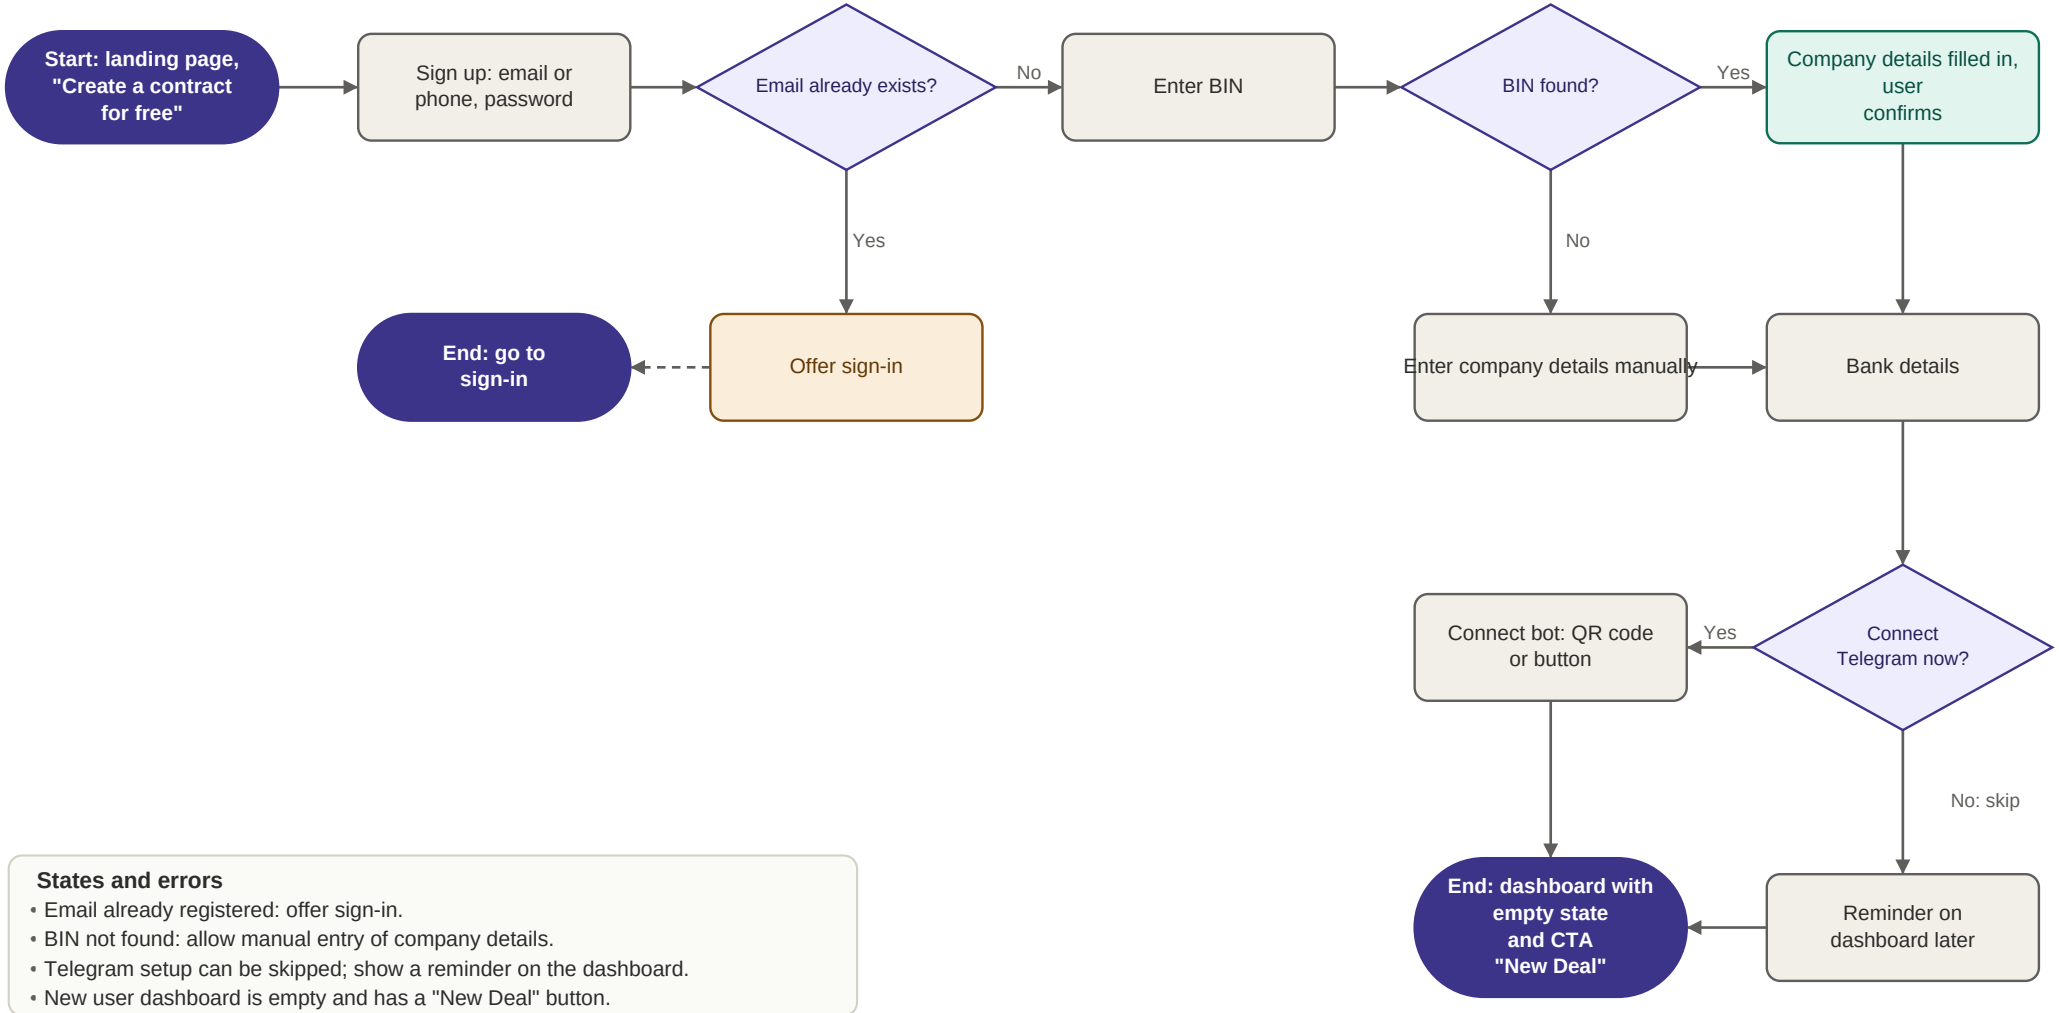

States to include in the mockups

- Free plan limit reached (pricing screen).
- Form validation error: highlight the field and show a hint.
- Screening in progress: three checks run in sequence, 3·5 sec.
- Red result: explanation and two action buttons.
- "Back" keeps entered data; draft is saved automatically.

Start / end · User screen or action · System action · Decision · Loopback or error

5.1. Sign-up and Onboarding

From landing page to an empty dashboard with a "New Deal" button

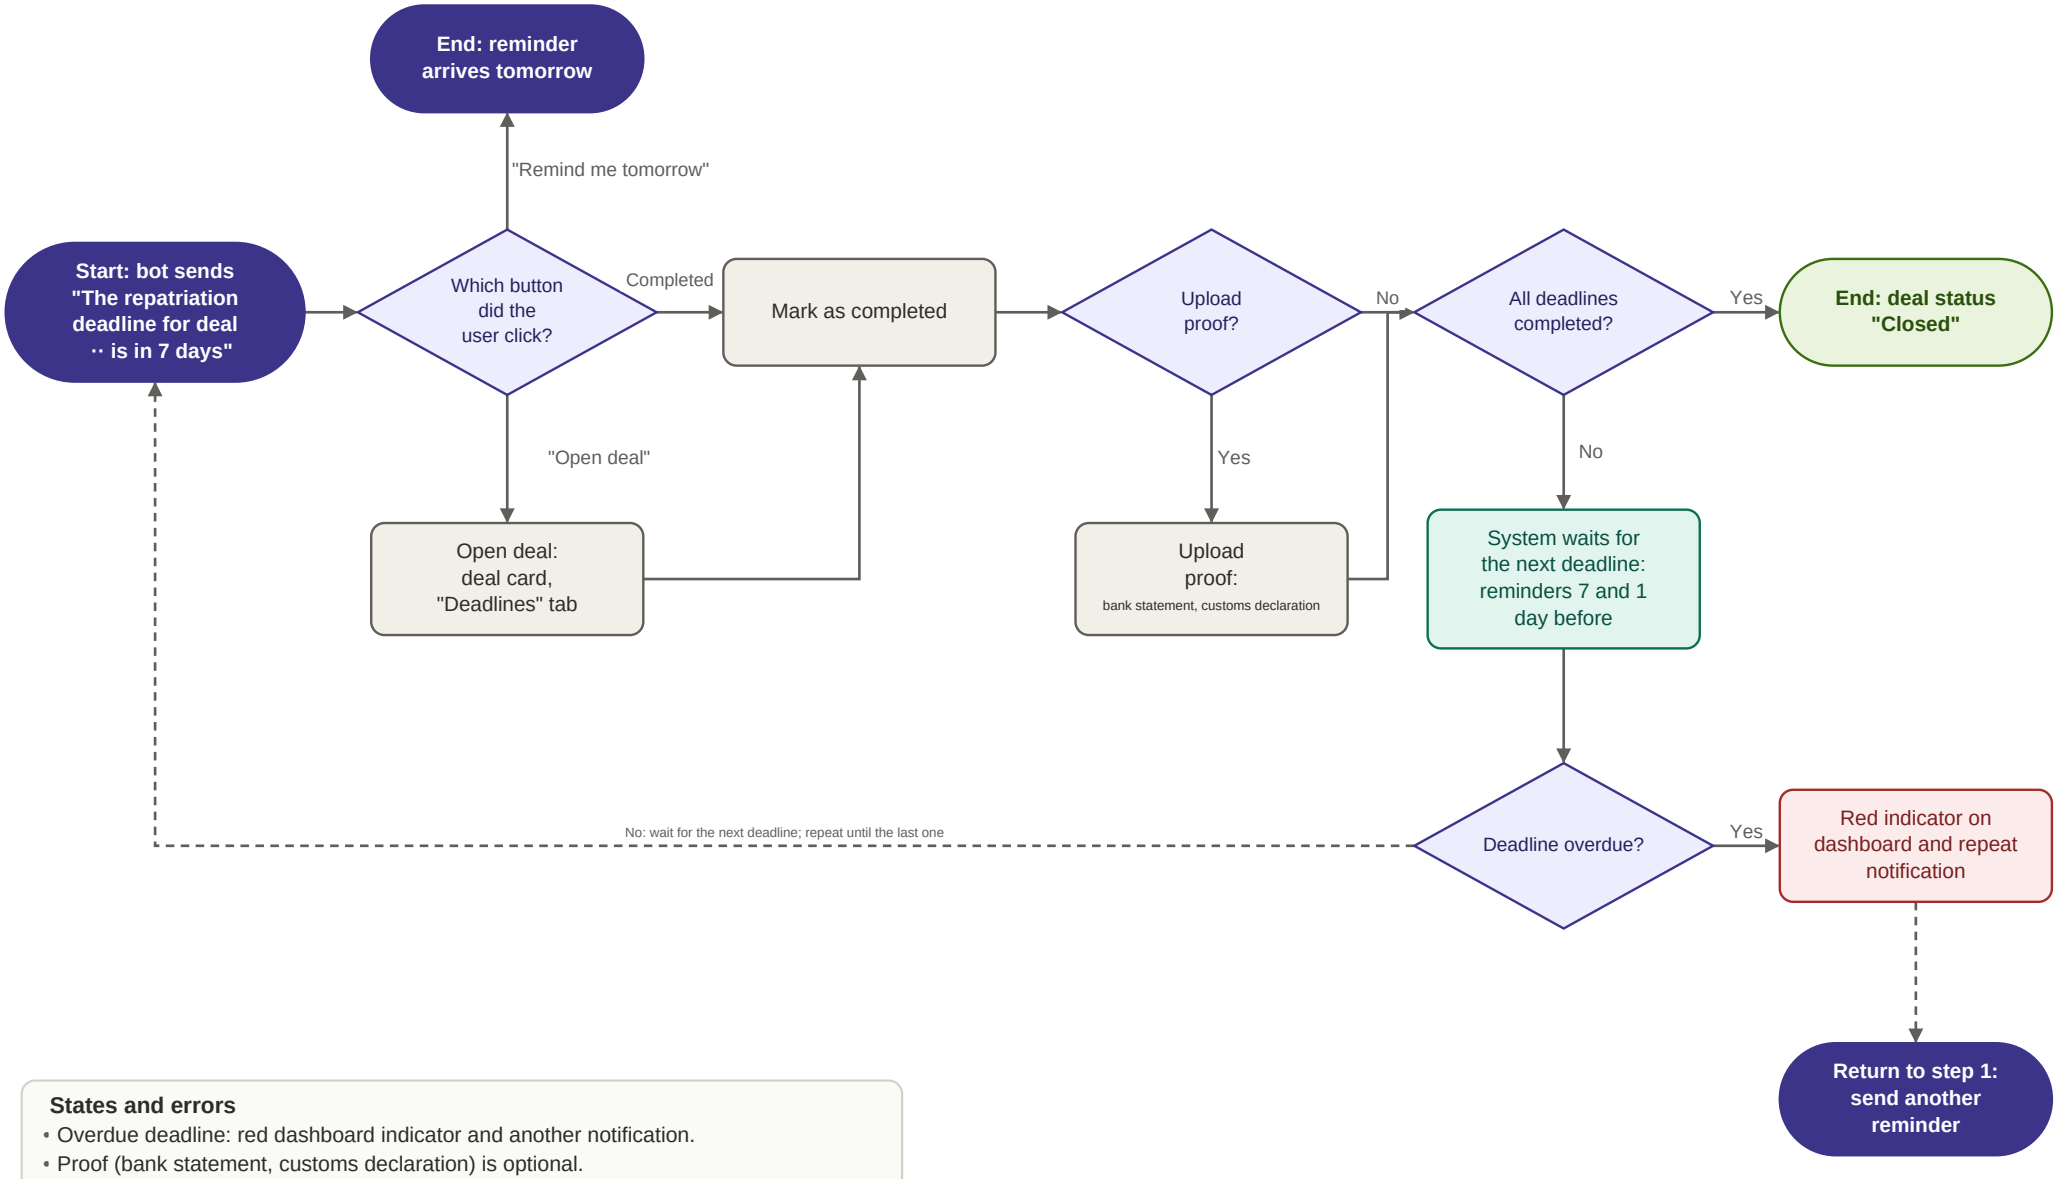

States and errors

- Email already registered: offer sign-in.
- BIN not found: allow manual entry of company details.
- Telegram setup can be skipped; show a reminder on the dashboard.
- New user dashboard is empty and has a "New Deal" button.

Start / end · User screen or action · System action · Decision · Loopback or error

5.3. Responding to a Reminder

Telegram bot message, completion confirmation, deal closure, or overdue deadline

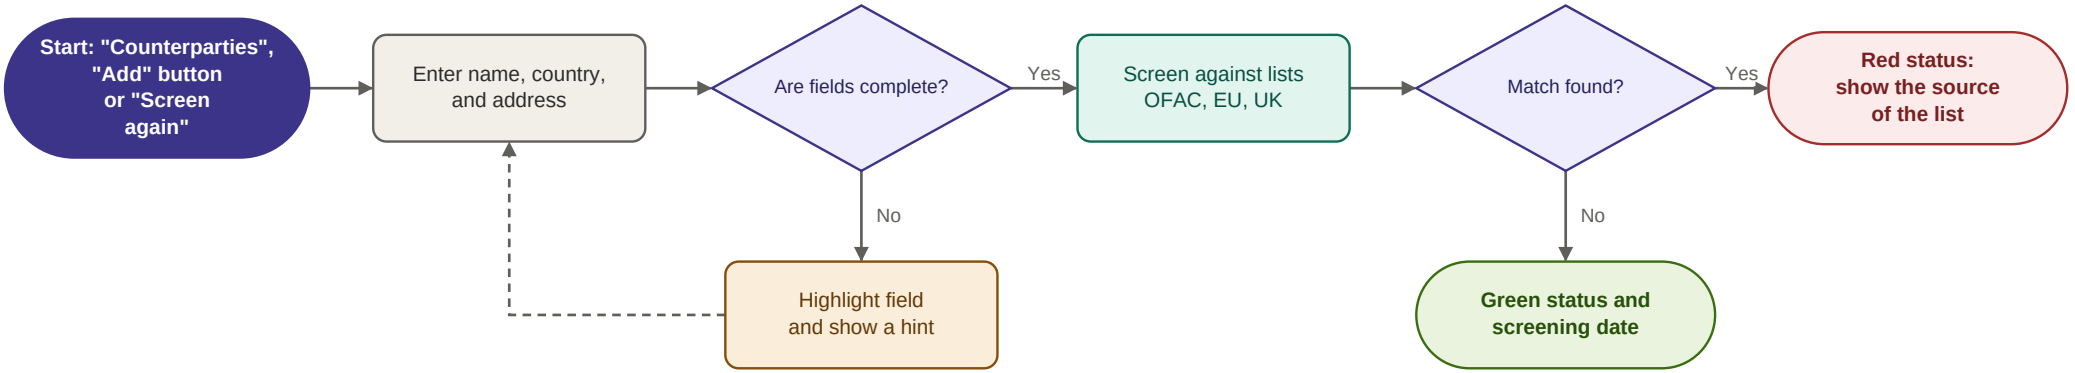

States and errors

- Overdue deadline: red dashboard indicator and another notification.
- Proof (bank statement, customs declaration) is optional.
- When all deadlines are met, the deal status becomes "Closed".

Start / end · User screen or action · System action · Decision · Loopback or error

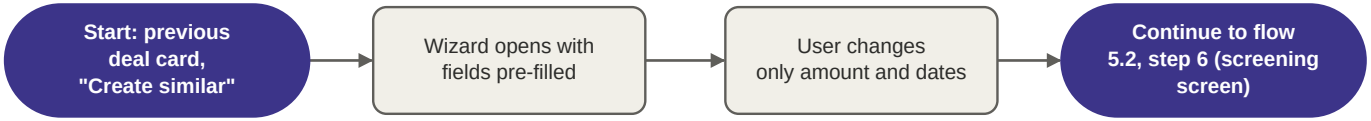

5.4. Counterparty Screening

Add a new counterparty or re-screen an existing one

5.5. Repeat Deal

Create a deal from a previous one: change only the amount and dates

Start / end · User screen or action · System action · Decision · Loopback or error
